Experimental Lung Research

Volume 10 1986

CONTENTS

Number 1

LAUD K. OKINE, MICHAEL C. LOWE, EDWARD G. MIMNAUGH, JANET M. GOOCHEE, AND THEODORE E. GRAM
Protection by Methylprednisolone against Butylated Hydroxytoluene-Induced Pulmonary Damage and Impairment of Microsomal Monooxygenase Activities in the Mouse: Lack of Effect on Fibrosis 1

J. F. BERNAUDIN, D. THEVEN, M. C. PINCHON, M. BRUN-PASCAUD, B. BELLON, AND J. J. POCIDALO
Protein Transfer in Hyperoxic Induced Pleural Effusion in the Rat 23

ELAINE S. WRIGHT
Effects of Short-Term Exposure to Diesel Exhaust on Lung Cell Proliferation and Phospholipid Metabolism 39

J. H. WIDDICOMBE, A. A. GASHI, C. B. BASBAUM, AND I. T. NATHANSON
Structural Changes Associated with Fluid Absorption by Dog Tracheal Epithelium 57

CAROLYN E. PATTERSON, MARK V. KONIKI, WILLIAM M. SELIG, CONNIE M. OWENS, AND RODNEY A. RHOADES
Integrated Substrate Utilization by Perinatal Lung 71

CLYDE A. WATKINS, LISA R. BURKHART, AND D. EUGENE RANNELS
Protein Synthesis in Perfused Rat Lungs: Determinations Based on Incorporation of Radioactive Proline 87

GEN LIN XU, KANDIAH SIVARAJAH, REEN WU, PAUL NETTESHEIM, AND THOMAS ELING
Biosynthesis of Prostaglandins by Isolated and Cultured Airway Epithelial Cells 101

Number 2

S. ROBERT HILFER, STEPHANIE L. SCHNECK, AND JOYCE W. BROWN
The Effect of Culture Conditions on Cytodifferentiation of Fetal Mouse Lung Respiratory Passageways 115

RICHARD F. HELLER AND RONALD E. GORDON
Chronic Effects of Nitrogen Dioxide on Cilia in Hamster Bronchioles 137

MARGARET W. LEIGH, TODD M. GAMBLING, JOHNNY L. CARSON, ALBERT M. COLLIER, ROBERT E. WOOD, AND THOMAS F. BOAT
Postnatal Development of Tracheal Surface Epithelium and Submucosal Glands in the Ferret 153

RAINER M. KAELIN, DAVID M. CENTER, MARGARET M. GRANT, AND JOHN BERNARDO
Production of Lymphocyte Chemokinetic Activity by Stimulated Alveolar Macrophages 171

JAMES P. KEHRER, YU-CHEN C. LEE, AND SUZANNE M. SOLEM
Comparison of In Vitro and In Vivo Rates of Collagen Synthesis in Normal and Damaged Lung Tissue 187

BRUCE A. FREEMAN, ROBERT J. MASON, MARY C. WILLIAMS, AND JAMES D. CRAPO
Antioxidant Exzyme Activity in Alveolar Type II Cells after Exposure of Rats to Hyperoxia 203

Number 3

MAGNUS SVARTENGREN, KLAS PHILIPSON, LARS LINNMAN, AND PER CAMNER
Regional Diposition of Particles in Human Lung after Induced Bronchoconstriction 223

JASON KELLEY AND LYNN CHRIN
Protein Synthesis in the Growing Rat Lung 235

B. E. LEHNERT, Y. E. VALDEZ, AND C. C. STEWART
Translocation of Particles to the Tracheobronchial Lymph Nodes after Lung Deposition: Kinetics and Particle-Cell 245

D. F. ROGERS AND P. K. JEFFERY
Inhibition by Oral N-Acetylcysteine of Cigarette Smoke-Induced "Bronchitis" in the Rat 267

D. F. ROGERS AND P. K. JEFFERY
Inhibition of Cigarette Smoke-Induced Airway Secretory Cell Hyperplasia by Indomethacin, Dexamethasone, Prednisolone, or Hydrocortisone in the Rat 285

D. F. ROGERS AND P. K. JEFFERY
Indomethacin and Flurbiprofen Speed Recovery of Rat Bronchial Epithelium after Exposure to Cigarette Smoke 299

MICHAEL E. NIEDERMEYER, MASANORI OKAMOTO, KENNETH L. BIRGHAM, AND BARBARA MEYRICK
The Effect of Steroidal and Nonsteroidal Anti-Inflammatory Agents on Granulocyte Migration Into Bovine Pulmonary Artery Intimal Explants 313

Number 4

KAREN M. REISER AND JEROLD A. LAST
Minireview: Early Cellular Events in Pulmonary Fibrosis 331

JOSEPH C. WILLIAMS, BARBARA R. VISCARELLA, PATRICIA TOWNSHEND-PIALA, AND JENNIFER A. TURPIN
The Alteration of Hamster Serum Elastase Inhibitory Capacities by Chloramine T, in Vitro and in Vivo 357

RICHARD D. DEY, JEANNE M. SNYDER, SAMUEL G. SPECIALE, AND JANET PRICE
Characterization of Human Pulmonary Endocrine Cells Maintained In Vitro 369

R. BÉGIN, S. MASSÉ, M. ROLA-PLESZCZYNSKI, M. MARTEL, Y. DESMARAIS, M. GEOFFROY, L. LEBOUFFANT, H. DANIEL, AND J. MARTIN
Aluminum Lactate Treatment Alters the Lung Biological Activity of Quartz 385

K. RAMAKRISHNAN BHASKAR, DONNA DEFEUDIS O'SULLIVAN, HELEN OPASKAR-HINCMAN, LYNNE M. REID, AND STEPHEN J. COLES
Density Gradient Analysis of Secretions Produced in Vitro by Human and Canine Airway Mucosa: Identification of Lipids and Proteoglycans in Such Secretion 401
